

## OUR INCREDIBLE RANGE OF CARTRIDGES

### Sediment Removal Filters

#### String Wound PP Sediment Replacement Filters

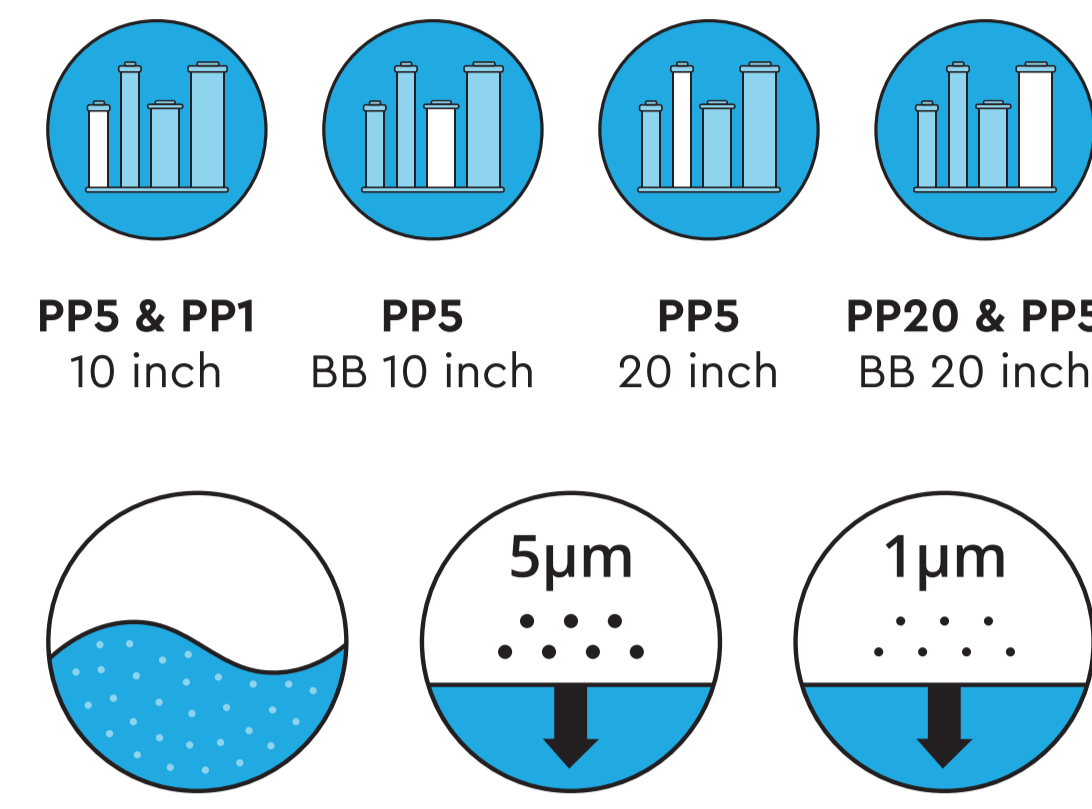

##### KEY FEATURES:

- Depth filter
- Larger sediment holding capacity
- For larger quantity sediment removal

#### Melt Blown Sediment Replacement Filters

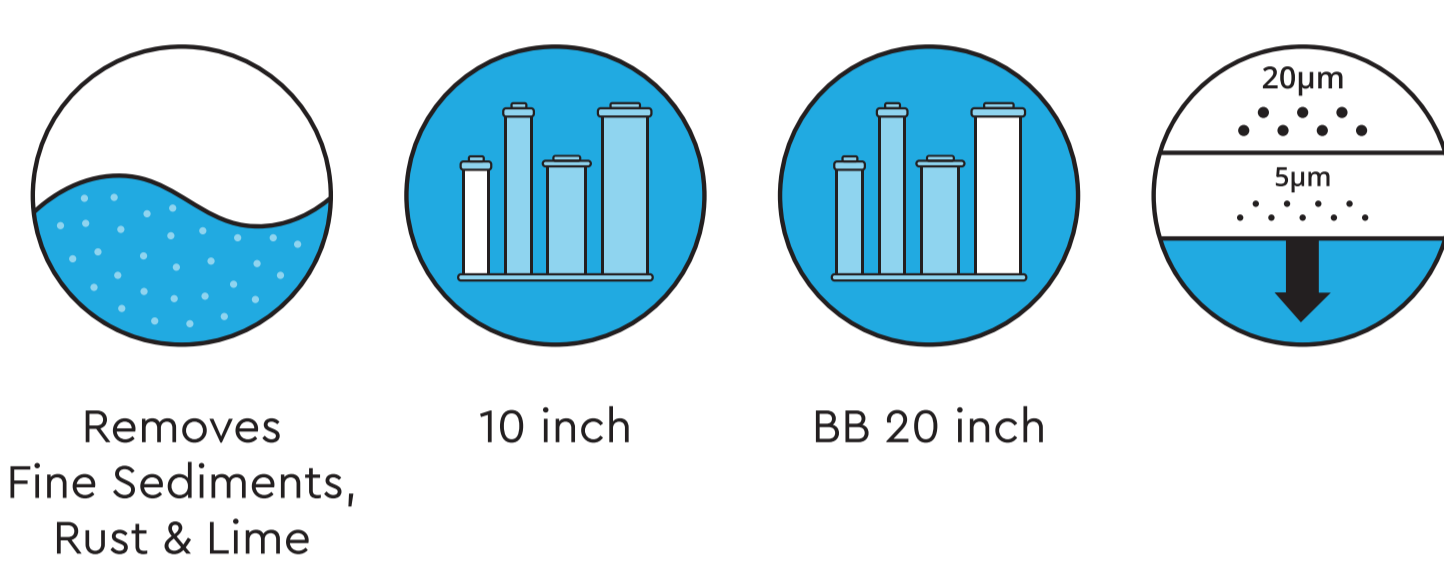

##### KEY FEATURES:

- Surface filter
- For standard municipal sediment removal

#### Dual Gradient Sediment PP Replacement Filters

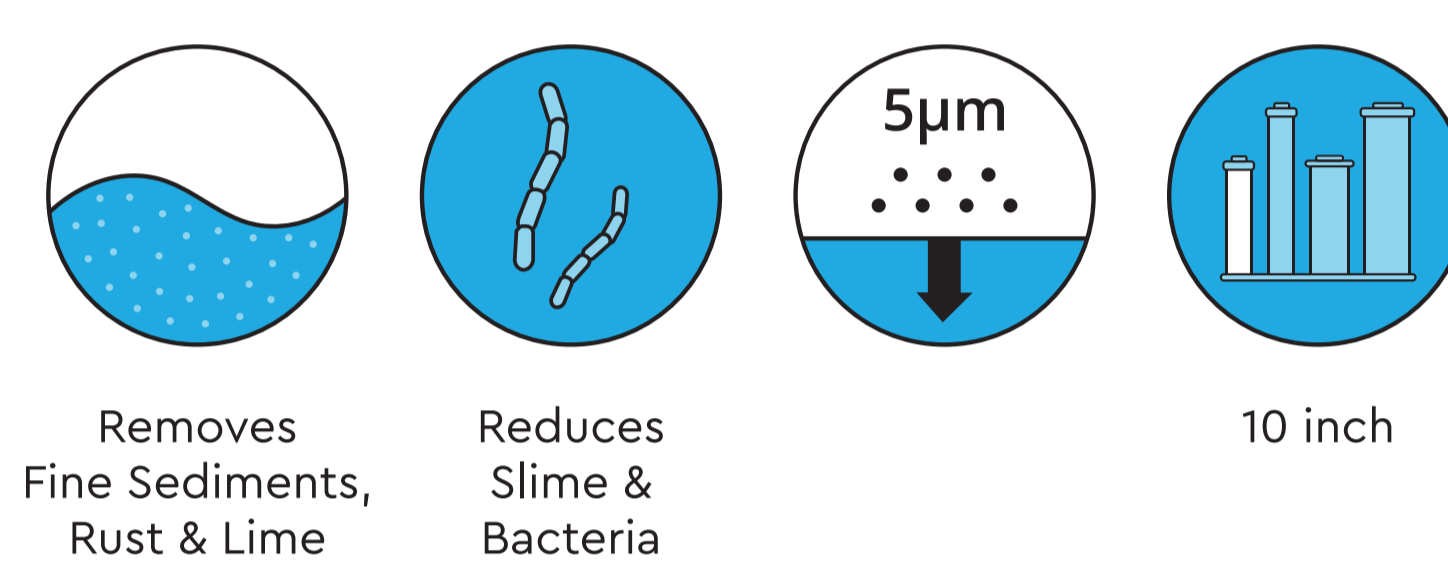

##### KEY FEATURES:

- 3 times higher capacity compared to standard PP replacement filters
- Minimal pressure loss

#### PP Melt Blown Sediment Replacement Filters with Bacteriostatic Effect

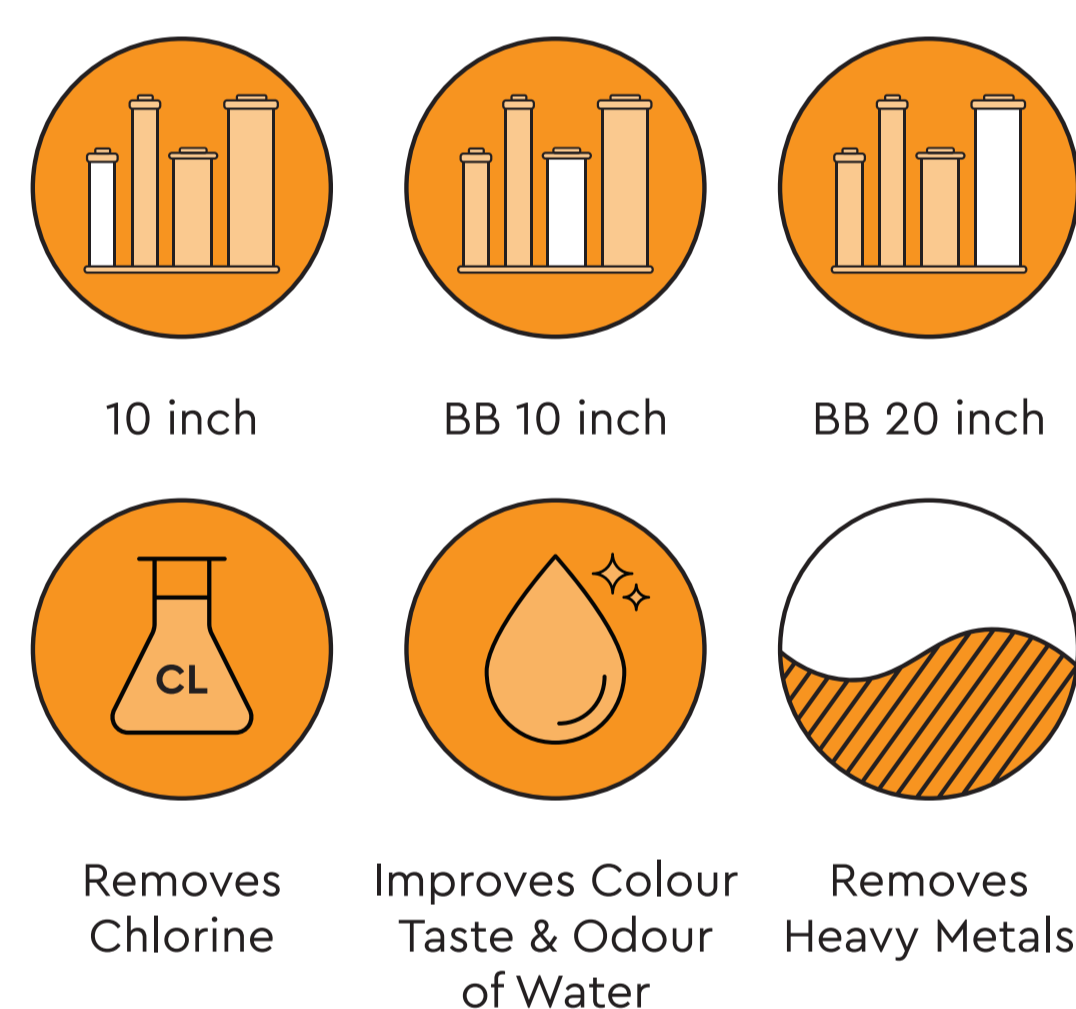

##### KEY FEATURES:

- Reduces the growth of slime and bacteria on the cartridge

### Chlorine Removal Filters

#### Granular Activated Carbon Replacement Filters

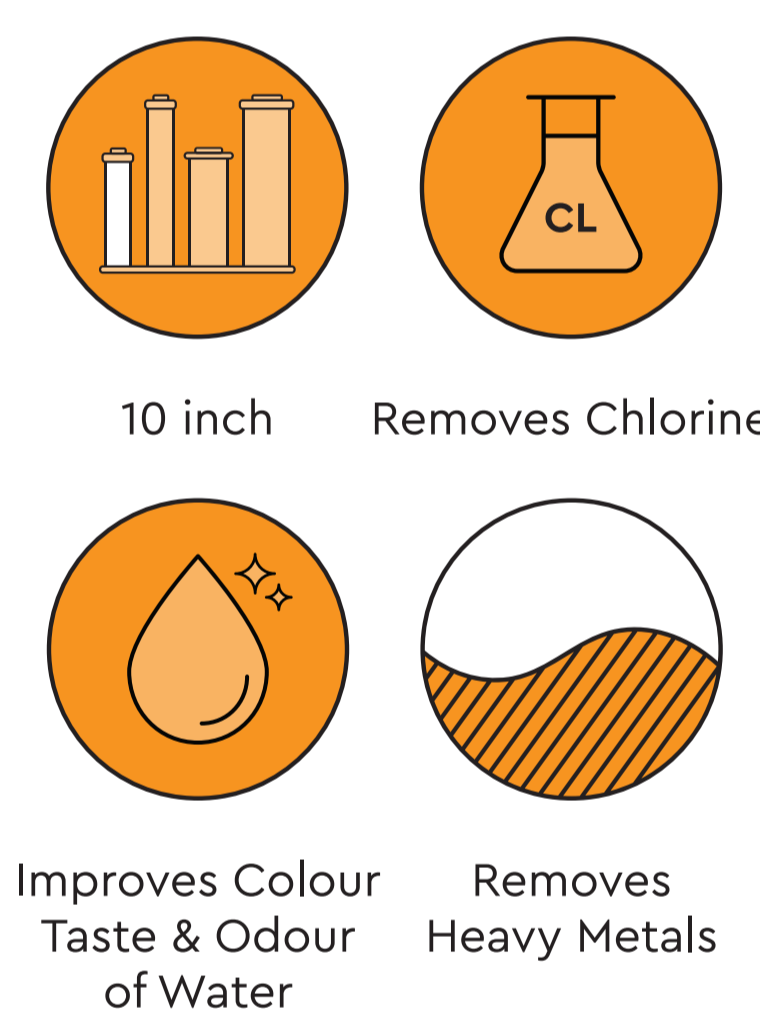

##### KEY FEATURES:

- Iodine No. +900mg/g, coconut shell carbon for best absorption and better taste
- Filter casing made of food grade plastic manufactured in the EU
- Higher flow rate

#### Carbon Block Replacement Filters

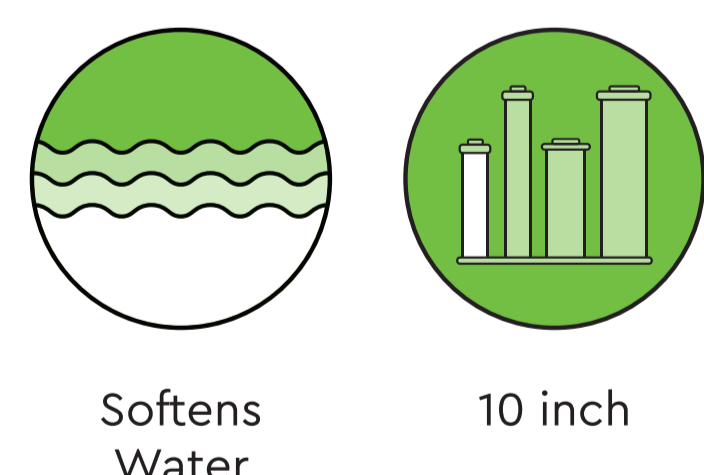

##### KEY FEATURES:

- Iodine No. +1000mg/g, coconut shell carbon for best absorption and better taste
- Powder Activated Carbon (PAC) for better absorption

### Specialised Water Filters

#### Replacement Filters for Hardness Reduction

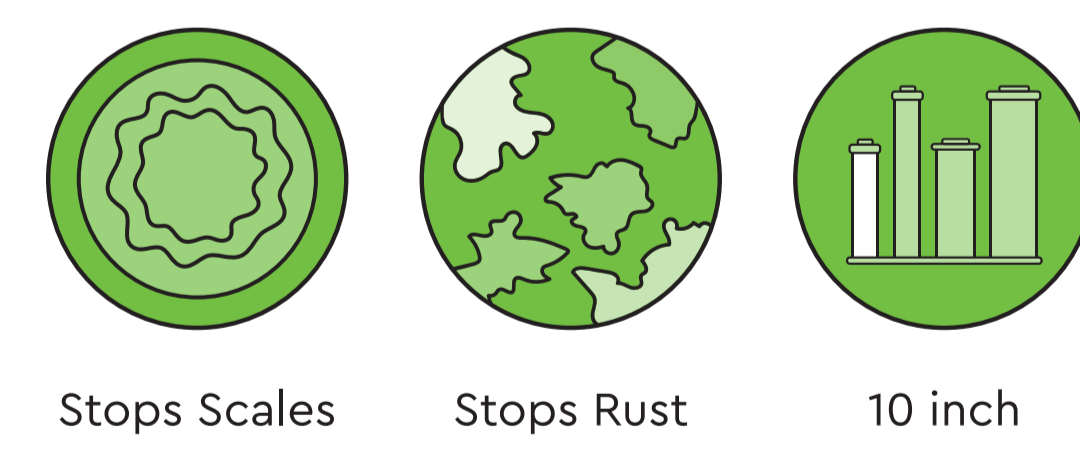

##### KEY FEATURES:

- Prolongs life of appliances
- Filter casing made of food grade plastic manufactured in the EU

#### Anti-Scale and Anti-Corrosion Replacement Filter

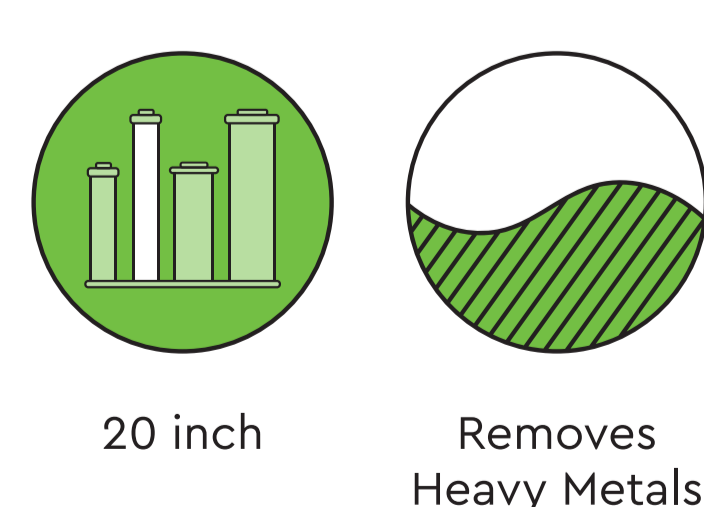

##### KEY FEATURES:

- Contains food grade silicopolyphosphate that slowly dissolves into water
- Safe for consumption
- Protects metal surfaces against corrosion at up to 180°C and inhibits scale formation at up to 100°C
- Filter casing made of food grade plastic manufactured in the EU

#### Replacement Filters for Iron Reduction

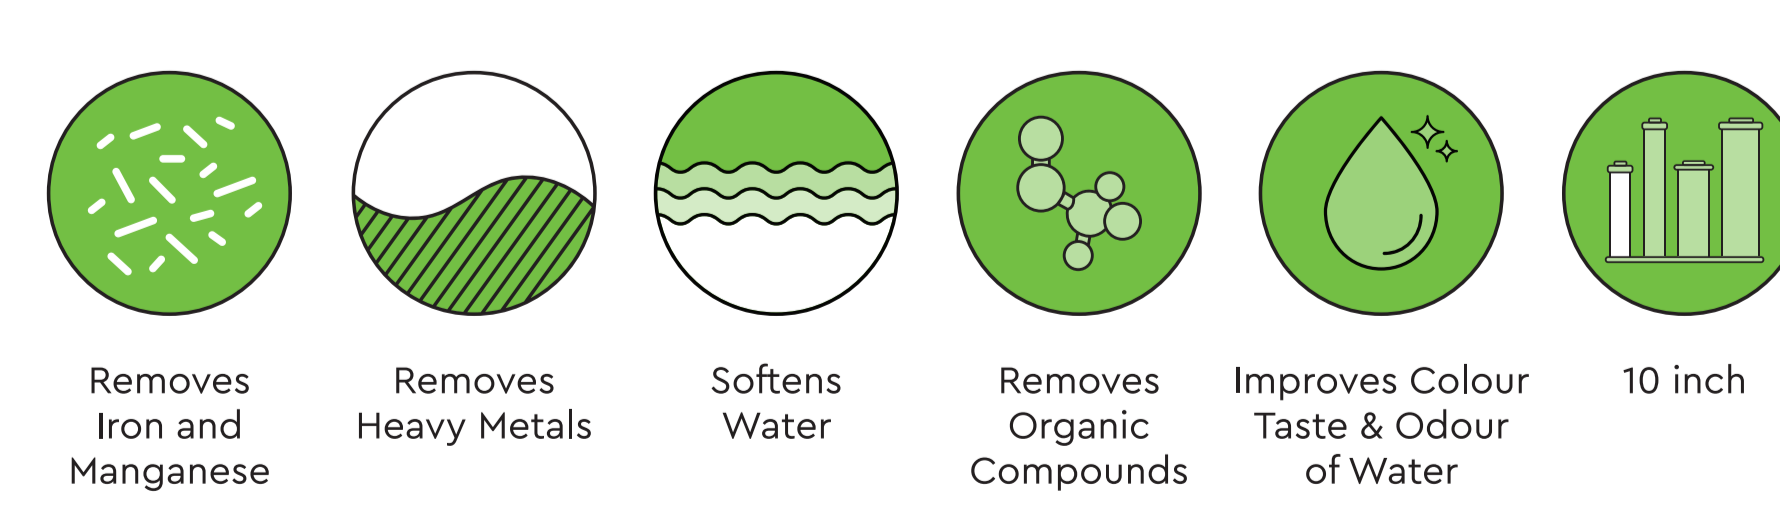

##### KEY FEATURES:

- Reduction of iron up to 80%
- Filter casings made of food grade plastic manufactured in the EU

#### Replacement Filter with Ecomix® Media

##### KEY FEATURES:

- 5 in 1 Filter
- Filter casings made of food grade plastic manufactured in the EU
