AQA Drink Care & Protect Undercounter Water Filter

**Adds magnesium for taste
& health boost!**

- Removes sand, silt & rust sediments.
- Removes microplastics.
- Removes chlorine, heavy metals, pesticides, hormones & other harmful contaminants.
- Ultrafiltration removes 99.9% bacteria, viruses & cysts.

The Perfect
All-in-1
Drinking
Water Filter

- +Magnesium
- Chlorine
- Heavy Metals
- Bacteria & Microplastics

Magnesium Mineralizer Jug Filter

Transform your tap water into mineralized drinking water.

Removes limescale & chlorine.
Adds magnesium for taste & vitality.
Fits into your fridge door.
Cartridge Capacity: 120ℓ or 1 month.

1.

2.

3.

Penguin Jug Replacement Cartridges

Removes limescale, chlorine & sediment.
1. Magnesium for taste & health.
2. Zinc for immunity.
3. Alkalisied for pH <8.5.

RV-PCT Portable CL+ Filter

Compact, economical & easily installed.
High capacity 4,500ℓ.

Bacteriostatic KDF 85 filtration media.
Capacity: 4,500ℓ or 12 months.

PCT Portable CL+ Filter

Compact, economical & easily installed.
High capacity 9,000ℓ.

Bacteriostatic KDF 85 filtration media.
Capacity: 9,000ℓ or 12 months.

CTP High Flow CL+ Filter

Suitable as countertop or undercounter.
High Capacity 3.8ℓ/min 27,750ℓ.

Bacteriostatic KDF 85 filtration media.
Capacity: 27,750ℓ or 36 months.

Stefani Gravity Water Filter 4 & 6 Litre

Environmentally friendly, provides pure, fresh drinking water from any water source.

- Simple. Economical. Stylish!
- Easy to use.
- Perfect for pensioners or single users, or applications where power and/or plumbed-in water is not available.

Deluxe Countertop Purifier Chlora+

Improves the taste, colour & odour of tap water, removes chlorine, sediment & other harmful contaminants.

H2O's proprietary GAC/KDF85 filtration media.
Easy to install – requires no plumber.
Capacity: 14,250ℓ or 24 months.
Fits most standard faucets.

BOB Countertop Water Filter

Improves the taste, colour & odour of tap water, removes chlorine, sediment & other harmful contaminants.

Available in White, Leaf Green & Ocean Blue.
Economical, compact, lightweight & easily movable.
Easy installation & filter change.

Home Water Filters – Undercounter

2 Stage Water Filter – Complete Set

Affordable, effective filter. Improves taste, odour & colour. Easy cartridge swap.

Removes chlorine & other contaminants.
Prevents scale build up in your kettle & appliances.
1 litre of clean water per minute.

3 Stage Water Filter – Complete Set

Purifies & softens water. Improves taste, colour & odour. Easy cartridge swap.

Removes chlorine & other harmful contaminants.
Prevents scale in your kettle & appliances.
1 litre of clean filtered water per minute.
Easy connection in 15 min.

RV-US4-S & Sediment Filter & Faucet

Chlora+ high-capacity, high flow technology, bacteriostatic purification.

45,000ℓ/36 months – 7.6ℓ/min.
Includes separate faucet for purified water.
Supplied in kit form – includes all fittings required for installation.

US4-S with Sediment Filter & Faucet CL+

Chlora+ high-capacity, high flow technology, bacteriostatic water purification.

- 90,000ℓ/36 months – 7.6ℓ/min.
- Includes separate faucet for purified water.
- Supplied in kit form – includes all fittings required for installation.

Woda-Pure S-F5 + Woda Pure Head

Removes sediment like sand, rust, & suspended solids.

Safe removal of suspended solids.
Fresh & tasty tap water.
Removes particles >5µm (microns).

Woda-Pure S-CUF + Woda Pure Head

Removes bacteria, chlorine & other harmful contaminants.

Eliminates chlorine taste & smell.
0.02µm ultrafiltration removes **99.9%** of organic contaminants like bacteria, viruses & cysts.

Woda & AQA Drink Magnesium Filters

Boosts magnesium & reduces limescale, improving taste & aroma of tea & coffee.

Reduces limescale in kettles & appliances.
Patented ion-exchange technology adds magnesium.

AQA Drink Care & Protect – Hard Water

All in one 5-stage purification & mineralization for your drinking water.

Removes sediments, microplastics, chlorine & limescale.
Ultra-filtration removes **99.9%** bacteria, viruses & cysts.
Adds magnesium for taste & health.
Suitable for hard water < 90ppm.

AQA Drink Care – Soft Water

All in one 5-stage purification & mineralization for your drinking water.

Removes sediments, microplastics, chlorine & limescale.
Ultra-filtration removes **99.9%** bacteria, viruses & cysts.
Adds magnesium for taste & health.
Suitable for soft water > 90ppm.

BWT Filterhead Technology

Fast & simple cartridge replacement. No technician required. Non-return valve reduces spilling when changing cartridge.

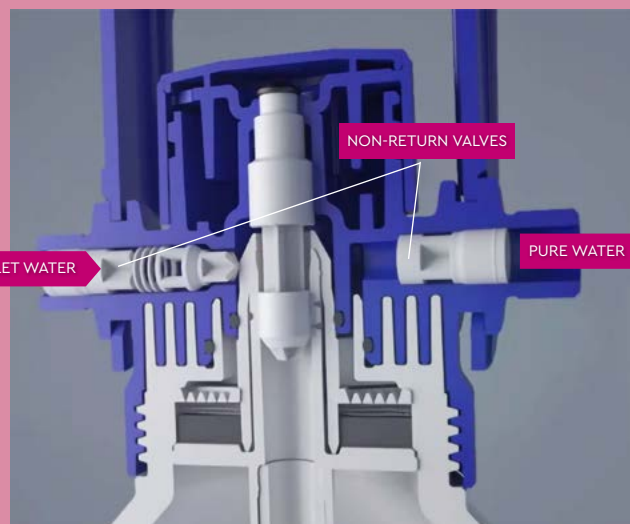

- Automatic Aqua-Stop.
- 2 x Non-return valves (Inlet & Outlet).

SCREW IN/OUT

- Automatic Aqua-Stop.
- 2 x Non-return valves (Inlet & Outlet).
- For magnesium cartridges.

5 Stage RO System without Pump

Removes 99.8% of impurities, incl. chlorine, fluoride & bacteria.

5 stages of water purification.
8ℓ of drinking water per hour.
Easy installation.

5 Stage RO System with Pump

Removes 99.8% of impurities, incl. chlorine, fluoride & bacteria.

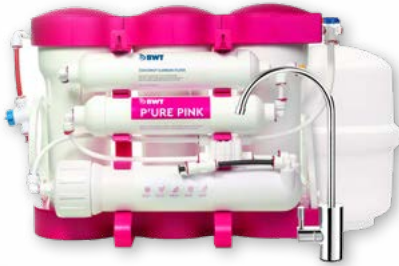

5 stages of water purification.
8ℓ of drinking water per hour.
With pump for low-pressure water systems.
Easy installation.

6 Stage RO System with pump

Reverse osmosis filter with mineralization replaces minerals.

6 stage purification with mineralization.
Capacity: 8ℓ/hour.
With pump for low-pressure water systems.
Easy installation.

P'ure Balance 6 Stage RO Filter

Magnesium minerals makes water fresh & tasty. Boosts health.

Industry leading membrane technology.
High stabilised salt rejection — 96%.
High capacity, 1:1 recovery ratio.
Easy to install & maintain.

P'ure Balance RO System with pump

Removes 99.8% of contaminants. Remineralizes your drinking water.

AquaGreen technology is economical & eco-friendly.
Designed for low pressure water systems.
Easy to install & maintain.

P'URE Alkafuse RO System with pump

Removes 99.8% of contaminants. Increases pH < 8.5.

pH value of filtered water is higher than 8.5.
Calcium & magnesium mineralized water.
Designed for low pressure water systems.
Easy to install & maintain.

Standard RO Filter Replacement Set

Double sediment filtration. Fits RO systems from other manufacturers.

- Stg. 1. Removes sediments < 5 µm.
- Stg. 2. GAC filter removes chlorine, heavy metals & natural organic matter.
- Stg. 3. Removes sediments & other insoluble compounds < 1 µm.

Advanced RO Filter Replacement Set

Sediment filtration. Maximum efficiency for high chlorine water. Final water polish.

- Stg. 1. Removes sediments < 5 µm.
- Stg. 2. GAC filter removes chlorine, metals & organic matter.
- Stg. 3. Carbon block removes chlorine & other insoluble components < 1 µm.

RO Mineralizers & Membranes

Replacement membranes & filters that add minerals to your RO water.

- 1. Mineralizer.
- 2. AquaCalcium adds calcium.
- 3. 75 GPD (Gallons Per Day) RO membrane.
- 4. 100 GPD RO membrane.

2 Stage Anti-Scale Filter

Reduces limescale in your home & appliances – food grade.

Stg. 1: Dual Gradient Density sediment filter.
Stg. 2: Anti-Scale & Anti-Corrosion replacement filter.

High Pressure & Hot Water Housings

Initial filtration to protect sanitary ware & plumbing.

High pressure: max. pressure 30bar/435psi.
Hot water: up to 80° Celsius
Great price! Easy to install 10" housings.

Double & Triple Big Blue 20"

Suits municipal, borehole & rainwater applications.

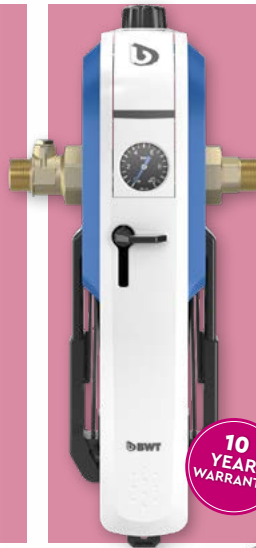

Plug & Play!
All you need to do is purchase your 20" cartridges & you are ready to go.

Protector & Backwash Filter

Protects your geysers, domestic & industrial appliances & ensures high-quality water.

- Flow rate: 3000 – 3,500ℓ/h.
- Sediment filter removal.
- Manual backwash – rotating wiper backwash technology.
- Fitting sizes: 3/4".

E1 Sediment Filter

A masterpiece of precision & fully compliant with all standards for hygienic & safe drinking water.

- Micron sizes: choice of 90µm & 30µm.
- Flow rate 2,300 – 3,630ℓ/h.
- HWS: includes a pressure reducer module.

AquaStar UV

Easy Plug-&-Play installation.
Suitable for municipal, borehole, rainwater purification.

- Removes unwanted contaminants & kills harmful bacteria.
- Flow rate: Up to 1000ℓ/hour.
- Operating pressure: 400kPa (max).

P'ure Water Softener 25ℓ & 12ℓ

Ecosoft P'URE Water Softeners are designed to reduce the hardness of household water.

- Suitable even for the smallest apartment.
- 1 filter removes 5 impurities.
- Eliminates streaks & stains on dishes & soft laundry.

BWT Softener Sanitabs 8KG

Cleans & disinfects the ion exchanger & kills any bacteria & other germ cells, as well as removes biofilm from the ion exchanger in the softener.

16X65 13X54 12X52

FRP – Activated Filtration Media

Removes sediments < 5µm. Lasts for 10 years when correctly backwashed.

Double the performance of sand filters.
Resists bio-fouling, bio-coagulation & channeling.

Never needs to be recharged or replaced.

16X65 13X54 12X52

FRP – Calcite

Raises pH of water to a non-corrosive equilibrium.

Naturally occurring, inexpensive material.
Low uniformity coefficient for maximum contact.
Slower reacting for controlled pH correction.

16X65 13X54 12X52

FRP – Granular Activated Carbon

Removes contaminants & improves colour, taste and odour.

High density, large micropore carbon column & high surface area.
Removes chlorine, chloramines, lead, TCE, PCE, THM, phenols, pesticides, detergents.

25 LITRE BAG

Ecomix Type C Media

Soft Pearl Water throughout your house.

Removes sediment, iron & manganese.
Reduces hardness & organic matter including tannins.
For treatment of borehole & chlorinated municipal water.

25 KG BAG

Water Softener Tablets

99.9% pure salt.
No contaminants.

Prevents formation of insoluble deposits in softeners.

25 KG BAG

Ecolite Water Softening Resin

Excellent kinetics & good physical, chemical, & thermo-stability.

Cation styrene-DVB gel resin delivered in Na⁺ form.
High capacity resin.
Suits residential, commercial & industrial applications.

2 YEAR WARRANTY

JP PT-H Booster Pump

Constant water pressure throughout the house from your water storage tank.

Booster pump with horizontal pressure tank & self-priming, single-stage centrifugal pump.
Rated flow: 5 m³/h.
Max. 6 bar pressure.

2 YEAR WARRANTY

Scala 1 Pump

Maintains constant water pressure for various domestic applications.

Integrated, quiet, self-priming water pressure pump.
Rated flow: 3.59 m³/h.
3 – 8 bar pressure.

2 YEAR WARRANTY

Scala 2 Pump

Variable speed drive. Maintains water pressure for various domestic applications.

Integrated, quiet, self-priming water pressure pump.
Rated flow: 3 m³/h.
6 – 10 bar pressure.

3 Way Mixer - Brushed Steel

Contemporary brushed stainless steel. For regular hot, cold & purified water.

3 Separate levers for regular tap water & purified water in one mixer. Separate inlets & internal pipes. High spout for easy filling of bottles & pots.

Premium T-Style Faucet

Stylish tap for all models of under-counter water purifiers & ROs.

Single lever water purifier faucet. Brass body with polished chrome finish.

Standard T-Style Faucet

Simple, stylish tap for use with undercounter water purifiers & ROs.

Single lever water purifier faucet. Brass body with polished chrome finish.

Reverse Osmosis – Horeca

RObust 1000 RO Filter

High-flow pure water for beverage, food & drinks preparation.

60 l/hr pure water for hotels, restaurants & cafes. Protects appliances & equipment. Produces sparkling dishes & transparent ice. Improves taste of drinks and beverages. Operates without pressure tank.

RObust Pro RO Filter (Barrista Pro)

High-flow pure water for beverage, food & drinks preparation.

75 l/hr pure mineralized water for hotels, restaurants & cafes. Protects appliances & equipment. Produces sparkling dishes & transparent ice. Improves taste of drinks and beverages. Operates without pressure tank.

RObust 3000 RO Filter

High-flow pure water for beverage, food & drinks preparation.

145 l/hr water for HoReCa. High-pressure pump. Built-in pressure gauges indicating pre-filter & membrane condition. Standard membranes & replacement filters. Operates without pressure tank.

Ecosoft RO Membrane

Membrane replacement for the RObust 1000 RO.

100 GPD (Gallons Per Day). Full 15l pressure tank in 60 minutes. Full capacity even in 15 °C water. High sensitivity-97%. Individually vacuum tested. Shipped dry.

SEDIMENT GAC CARBON BLOC ROBUST FILTER

Ecosoft Filter Replacement Set

Filter cartridge replacement for the RObustPro RO.

Sediment filter removes sand, silt & rust. GAC filter removes chlorine & organic matter. Carbon-block improves smell & taste of water. RObust PRO filter adds magnesium & calcium, enhancing taste of tea & coffee.

Ecosoft RO Membrane

Membrane replacement for the RObust 3000 RO.

500 GPD (Gallons Per Day).

MO5000 & MO10000

Turnkey solution ideal for commercial, residential & production facilities.

MO5000 – 250 ℓ/hr.
MO10000 – 500 ℓ/hr.
Supplied without membranes.
Simple maintenance.
Low energy consumption.
Warranty excludes consumables.

MO6500

Turnkey solution ideal for commercial, residential & production facilities.

280 ℓ/hr.
Up to 1700 gal (6500 Litres) per day.
Supplied without membranes.
Simple maintenance.
Low energy consumption.
Warranty excludes consumables.

MO12000

Turnkey solution ideal for commercial, residential & production facilities.

530 ℓ/hr.
Up to 3200 gal (12 000 Litres) water per day.
Original eye-catching design & compact size.
Simple maintenance.
Low energy consumption.
Warranty excludes consumables.

MO24000

Turnkey solution ideal for commercial, residential & production facilities.

1000 ℓ/hr.
Up to 6400 gal (24 000 Litres) of pure water per day.
Supplied without membranes.

MO36000

Effective turnkey solution for problem water commercial & production facilities.

1500 ℓ/hr.
Up to 9 500 gal (36 000 Litres) of pure water per day.
Supplied without membranes.

Membrane 4" ELP4040

For purification of brackish water in low-pressure systems.

Pure water for business.
Low energy consumption.
Fast replacement & convenient storage.

10 l/h, 8-12°C.

* Warranty upgraded to 3 years if regularly serviced by a H2O|BWT Franchisee.

The New AQA Drink 20 Pro

Compact, powerful all-rounder with new LED ultraviolet technology.

The compact, powerful all-rounder can be used universally with medium water consumption. With all-round service & BWT hygiene system, it provides the highest standard of hygiene &, above all, great-tasting mineralized water – ambient, cold, sparkling or hot. AQA drink PRO 20 is available as a countertop or as a floor-standing solution (with integrated base cabinet).

- Available in: cold, ambient & sparkling water or hot, cold & sparkling water.
- Cooling capacity 20 ℓ/h & heating capacity 9 ℓ/h.
- Ideal for offices, lobbies & meeting rooms.

H2O
GAC/KDF

Ideal for purification of municipal water.

5,000ℓ or 12 months, 10" cartridge.
Improves tastes, colour & odour.
Removes chlorine, natural & synthetic organic matter & volatile organic compounds (VOCs).
Contains H2O's proprietary KDF technology.

H2O

GAC/KDF CL+

Ideal for purification of municipal water treated with chloramines.

10" cartridges.
Improves tastes, colour & odour.
Removes chlorine, natural & synthetic organic matter & volatile organic compounds (VOCs).
Contains H2O's proprietary KDF technology.

H2O

GAC/KDF CL+ for Deluxe Filter

Ideal for purification of municipal water treated with chloramines.

14,250ℓ or 24 months, 9.5/10" cartridge.
Improves tastes, colour & odour.
Removes chlorine, natural & synthetic organic matter & volatile organic compounds (VOCs).
Contains H2O's proprietary KDF technology.

Deluxe water filter.
(See page 3.)

ecosoft
BWT WATER PROFESSIONALS

Standard 3-stage Replacement Set

Fits standard 10 inch housings.

Stg. 1: Sediment filtration < 5 µm.
Stg. 2: Softens water & removes chlorine & heavy metals.
Stg. 3: Improves colour, taste & odour of water.

ecosoft
BWT WATER PROFESSIONALS

Absolute 3-stage Replacement Set

Fits standard 10 inch housings.

Stg. 1: Softens water & removes chlorine & heavy metals.
Stg. 2: Removes chlorine, organics & toxic heavy metals.
Stg. 3: Improves colour, taste & odour of water.

String Wound Filter

KEY FEATURES:

- Depth filter.
- Larger sediment holding capacity.
- For larger quantity sediment removal.

Melt Blown Sediment Filter

KEY FEATURES:

- Surface filter.
- For standard municipal sediment removal.

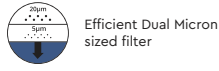

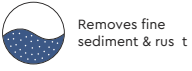

BB 10" 10" 20" BB 20"

Dual Gradient Sediment Filter

KEY FEATURES:

- Depth filter.
- 3 times higher capacity compared to standard PP replacement filters.
- Minimal pressure loss.

Bacteriostatic Sediment Filter

KEY FEATURES:

- Reduces the growth of slime & bacteria on the cartridge.

Granular Activated Carbon Filter

KEY FEATURES:

- Iodine No. +900mg/g, coconut shell carbon - improves colour, taste & odour.
- Food-grade plastic, made in the EU.
- Higher flow rate.

Carbon Block Filter

KEY FEATURES:

- Iodine No. +1000mg/g, coconut shell carbon for best absorption & better taste.
- Powder Activated Carbon (PAC) for better absorption.

Hardness Reduction

KEY FEATURES:

- Prolongs life of appliances.
- Filter casing made of food-grade plastic, manufactured in the EU.

Anti-Scale & Anti-Corrosion Filter

KEY FEATURES:

- Contains food-grade sillicopolyphosphate.
- Safe for consumption.
- Protects against corrosion - up to 180 °C & inhibits scale formation to 100 °C.

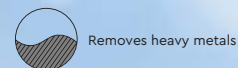

Iron Reduction Filter

KEY FEATURES:

- Reduction of iron up to 80%.
- Filter casing made of food-grade plastic, manufactured in the EU.

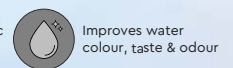

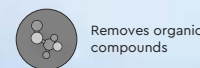

Ecomix® Media Filter

KEY FEATURES:

- 5 in 1 Filter.
- Filter casing made of food-grade plastic, manufactured in the EU.

Tritan 600 ml Water Bottle Set

Robust, ergonomic 600 ml bottle, sits comfortably in the hand.

Made of high-quality material TRITAN™, 100% BPA-free. Shatterproof. Leak-proof, divisible screw cap for pleasant drinking, easy cleaning & filling.

Climate Bottle Edition

Purified water on the go. No single-use plastic bottles with our stylish refillable bottles!

500ml stainless steel bottle. Double-walled body keeps water hot or cold for 18+ hrs. Leak-proof stainless steel screw cap. Shatterproof & food-safe.

Glass Carafe

Stylish. Large opening for easy & convenient filling of ice cubes, fruit etc.

High-quality, hand-blown glass, 1.1 l carafe with silicone rim. For cooling, the carafe can be placed in a beverage compartment of a standard refrigerator. Suitable for still or sparkling water.

Peaked Cap

Pink-is-an-attitude! Stylish cap with Change-the-World-Sip-By-Sip design.

Flexfit cap. Elastic mesh material. 3D-Logo embroidery. Fixed, curved shade.

Yes!

You Should Drink Magnesium Mineralized Water!

Magnesium is the taste carrier in water, offering refreshing & thirst-quenching flavour, combined with a hint of sweetness & softness on the palette. The taste just makes you want to drink more!

Ensuring optimal extraction in your coffee & tea – ask any barista & they will tell you coffee is 98% water & it is the minerals that bring the taste through. Try it & taste the difference!

Water contains between 20 to 30 mg/l of magnesium, which adds to our daily magnesium intake. It also offers energy creation, protein formation, gene maintenance, muscle movements & nervous system regulation.

H2O | BWT Services

Convenience at your doorstep!

Water Dispenser Sanitation

Sanitation involves the cleaning of the external parts of the dispenser, and the cleaning and disinfecting of all internal water contact surfaces, pipework and taps. The sanitation can take about 15 minutes. H2O|BWT can sanitize almost any type of dispenser. We recommend dispenser sanitizing every 6 months.

Installation, Service and Repair

Our infield specialist team will ensure you get the best out of your product, whether it's installation of new products or servicing of the existing. We also offer a service of auditing your domestic water treatment plant and advise the best option for refurbishment.

Water Dispenser Rentals

We offer a wide range of products and services that bring you good quality drinking water for your home and office. Our rental solutions offer a wide range of water purification and filtration products. We offer competitive pricing, professional service and a dedicated after-sales service team.

Water Delivery Service

Purified water can be delivered to your doorstep for use in your home or for a bottle type dispenser. This convenient service ensures you have water on tap, whenever needed.

Get a Water Sample Analysis for the Perfect Water Purifier Match!

You really shouldn't buy a water filter off-the-shelf. It is highly likely that it will be incorrect for your area's water problems.

Send us a water sample and we will advise, free of charge, which filter is the best for you.

How to Send a Water Sample:

Go to: h2o.co.za/test-your-water for all the information you need on sending us a water sample. The result? 100% peace of mind that you bought the correct water filter for your needs.
